Western 1-Kote

Western 1-Kote Component Assembly

Systems must comply with local building codes and applicable standards. Details shown in this document are for guidance and informational purposes only. Western Blended Products disclaims any liability regarding the use of these drawings and document for any project purpose. The designer of the project determines the functionality equivalency of these details and how these are suited for the project. Installation details may change with time. Please contact Western Blended Products for more information.

System Details

■ Typical Installation

Western 1-Kote over CMU Block

Note:

For best results, CMU shall be sealed or prepared with a bonding agent prior to Western 1-Kote application in order to reduce the suction during the basecoat curing process.

April 2018
